## **CAMPUS TRANSPORTATION APPLICATION USER GUIDE**

# **PREFACE**

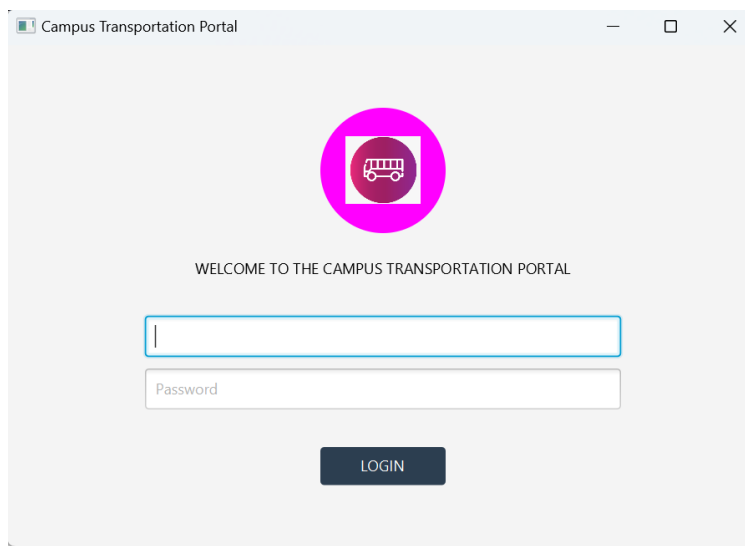

Welcome to the Campus Transportation Portal, your streamlined solution for navigating campus transportation efficiently and securely. This portal is designed to serve the students of our campus community by providing an intuitive platform for managing your transportation needs. We understand the importance of having reliable and easy-to-access transportation, which is why we've created this user-friendly system to ensure your campus travels are hassle-free.

Our commitment is to provide a service that is both convenient and adaptable to your academic schedule. With routes preselected by the administration, all you need is your Student ID to align your individual timetable with our transportation offerings.

# **STEPS**

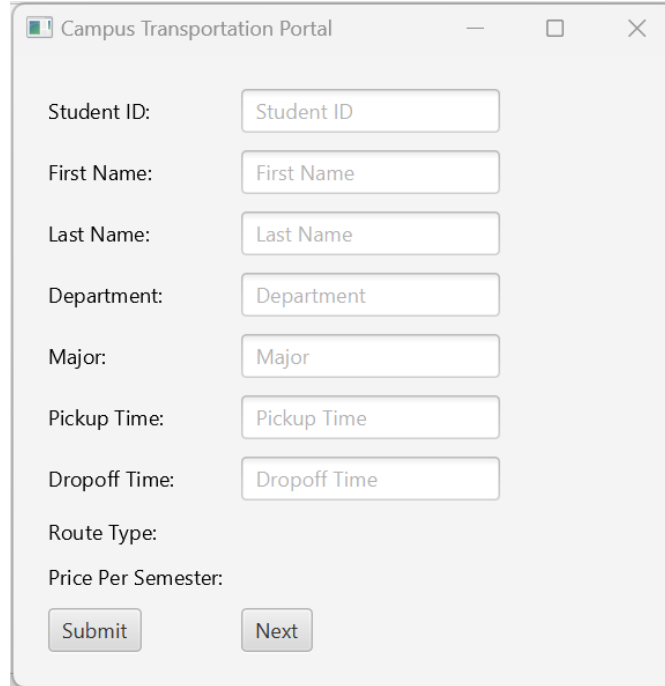

## **Step 1: Logging In**

Start by accessing the Campus Transportation Portal. Enter your Student ID and Password in the fields provided. Your Student ID is essential for mapping your account to the preselected transportation routes.

Underneath this text are two input fields: the first is a long, empty rectangular box with a blue border; the second is a similar box with the placeholder text "Password" in a light gray font. At the bottom center of the form is a dark blue rectangular button with the word "LOGIN" in white, uppercase letters. The browser window includes standard window controls (minimize, maximize, close) in the top right corner.

## Step 2: Verifying Your Details

Once logged in, verify your personal details including your name, department, major, and the pre-assigned pickup and dropoff times. It's crucial to ensure that your Student ID matches the records to maintain the accuracy of your schedule.
